

A Message From

Mayor Williams

Winter Storm Leon

Union City - Due to Winter Storm Leon, which has caused severe icy & dangerous road conditions, Union City Government Offices, including Parks & Recreation facilities & Municipal Court will continue to be closed on Wednesday & Thursday. It is our desire to keep all of our residents & employees safe during these times. All essential staff should report to work at their scheduled times.

We urge all of you to stay home unless travel is absolutely necessary. Our Public Safety Department & Public Works Staff

are working diligently to resolve hazardous road conditions as quickly as possible. We ask that you bear with us as we are experiencing a high call volume. As always, our website, www.unioncityga.org will serve as a leading source to provide you minute by minute information as it is provided to us. We also encourage you to like us on Facebook (City Government of Union City) for important information. Thank you for letting us serve you and we are glad that you are here. As promised, if you ever need me, I am a phone call away.

Thanks & Have a Blessed and Safe Week.

Mayor Williams

If You Suspect A Frozen Pipe

If you open a faucet and no water comes out, don't take any chances. Call a plumber. If a water pipe bursts, turn off the water at the main shut-off valve (usually at the water meter or where the main line enters the house); leave the faucet(s) open until repairs are completed. Don't try to thaw a frozen pipe with an open flame; as this will damage the pipe and may even start a building fire. You might be able to thaw a pipe with a hand-held hair dryer. Slowly apply heat, starting close to the faucet end of the pipe, with the faucet open. Work toward the coldest section. Don't use electrical appliances while standing in water; you could get electrocuted.

Mall Boulevard
Shannon Boulevard
Shannon Parkway

Please continue to use extreme caution on all roads.

MARTA INCLEMENT WEATHER NOTICE

Marta has issued an Inclement Weather Advisory. For more information on delays, please visit their website at www.itsmarta.com

HEATING TIPS "SPACE HEATER SAFETY"

Heating equipment is a leading cause of home fire deaths. Almost half of home heating equipment fires are reported during the months of December, January, and February. Some simple steps can prevent most heating-related fires from happening.

Safety Tips

- Keep anything that can burn at least three feet away from heating equipment, such as the furnace, fireplace, wood stove, or portable heater.
 - Only use heating equipment that has the label of a recognized testing laboratory.
 - Never use your oven for heating.
 - Have a qualified professional install stationary space heating equipment, water heaters or central heating equipment according to the local codes and manufacturer's instructions.
 - Maintain heating equipment and chimneys by having them cleaned and inspected annually by a qualified professional.
 - Turn portable heaters off when leaving the room or going to bed.
